

## User Stories

### Admin:

As an Admin , I want to add flights and modify them, so that new flights can be added and their data can be updated whenever changes occur.

I also want to add new passengers and modify them, so that I can control their data .

### Customer:

As a Customer I want to view flight schedules so that I can find my needed flight.

I also want to ask for reservation so that I can go to specific place at specific time.

I also want to ask for cancellation so that I can get back my money and spend it another time .

### Flight:

As a Flight I want to keep flights' data , so that I can show them to user and delete and update and add to them whenever required.

### User:

As a User I want to act as an interface between program and user , so that I can transform user's inputs to system.
